The Israeli Chamber Project is structurally complicit in Israel's continuing genocidal campaign against the Palestinian people. Following Israel's earlier 2009 assault on Gaza, an Israeli Foreign Ministry official stated, "We will send well-known novelists and writers overseas, theater companies, exhibits...This way you show Israel's prettier face, so we are not thought of purely in the context of war."

The Israeli Chamber Project is funded by the Israeli Ministry of Culture and Sport and the Mifal HaPais Council for Culture and the Arts (Israel's government-controlled lottery) for its commitment to cultural outreach, a role meant to distract audiences from Israel's genocide of the Palestinian people.. **USACBI condemns the artwashing of Israeli genocide, apartheid, and ethnic cleansing, and calls for a BOYCOTT of the Israeli Chamber Project's 2026 North American tour. Stand with the Palestinian people in their unwavering struggle for justice, liberation, and full and equal rights! Free Palestine!**
